Annual Bull & Female Sale

*Welcome to Ade Polled Herefords
3rd Annual Bull and Female Sale*

What a year it has been for everyone. Last year at this time we were not sure we could even have a sale and were fortunate enough to move forward as planned. Just like everyone in our business we just keep moving down the road of uncertainty. But now there appears to be some light at the end of the tunnel so let us hope for the best and move on.

We are committed to continuously improve our herd and focusing on Low BW, high WW & YW and the top end of the carcass traits CW, REA, MARB. I think that this year's set of cattle really show the progress we have made.

We continue to support the NRSP "National Reference Sire Program" and have added another bull to this year's list (SR SIERRA 959G ET) purchased in the spring 2020 Stuber Ranch bull sale. This son of LONG HAUL and Churchill Lady 7189E a great leader daughter will be a next level addition to our program and for yours as well. Co-owned with Greives Herefords and Stuber Ranch. We will be offering some bred heifers in the sale which will be the first calves available.

As you will see we have our first offering of (JUMPSTART) calves this year, and they are exciting with body and growth. What more could you ask for? Co-owned with Churchill Cattle Company.

Our main feature will once again be (JDH VICTOR 719T 33Z) We are so impressed with the quality of both bulls and females that we put him on the top of the breeding list again this year. With limited semen available it's your chance to get some of the best genetics you can find.

I would like to thank the buyers that have supported us this past year and look forward to doing business in the future.

Our goal remains to offer "Best in Class" Cattle in our sale, and we hope you will consider ADE POLLED HEREFORDS for your breeding program.

-John & Karen Ade

If you have been watching other sales and breeding programs you have seen the influence and difference this bull is making to the breed. We had the opportunity to purchase an interest from Lorenzen Farms on 33Z in Spring of 2018, but sadly he passed late that summer. There is a limited amount of semen left so we think this is a great opportunity to buy his direct offspring for your program. Over the years, I have commented how difficult it is to find a Sire that performs on both ends "bull and females" but 33Z is one of the rare types that produces tremendous bulls and females.
